

GRILLES

12

Oil Tempered Torsion Springs Designed for 50,000 Life Cycles

Solid $\frac{5}{16}$ " Aluminum Rods

Choice of Grille Patterns

Standard (5014) for Grilles to 30'0" Wide

Heavy (5015) for all Size Grilles

Heavy Duty Aluminum Extruded Guides & Bottom Bar

Choice of Finishes

Mill

Clear & Bronze Anodize

ColorCote in 180 Standard Colors

Choice of Operation

Push-Up - limit 140 square feet or 8' high

Crank

Motor

Built To Last a Lifetime

Cookson rolling grilles are an example of Cookson's uncompromised commitment to quality and value because they have been manufactured with the same proven materials and designs for decades. The grille curtains are still made of $\frac{5}{16}$ " solid aluminum rods rather than hollow rods and the links are still $\frac{1}{8}$ " or $\frac{3}{16}$ " thick aluminum shapes rather than thinner gauge materials. The aluminum extruded guides and bottom bars are still made of heavy-walled shapes. You can buy a cheaper grille, but you can't buy a better grille.

TYPICAL DETAILS
